38	
39	What consultation - definition? Limit 10+. Views - but not to further the interests of individuals, no nimbyism
40	This questionnaire is not fit for purpose, options should include Yes, No, Don't know, No opinion. There has been no community consultation. Q2 I have no way of knowing if I agree with SG, should be 6+. Views, I'm not comfortable with SG deciding. Q4 sustainability doesn't mean this, not true, design statement also needed

47	
48	Sustainability assessment crucial
49	Limit - it depends on type of development. Views but not ones selected by various other parties. Sustainability assessment - already true
50	Limit - what is appropriate for site

86	
87	Limit - no don't agree as anything inside settlement boundary will be limited by a shortage of suitable sites and outside settlement think up to 10 will be fine if site will take it. Views - I think this is just an excuse to try and stop all new building in village as all non-flood sites have been marked as possible views again trying to stop all building. Sustainability - think should be encouraged but not enforced as extra cost will price out even more young people from the village. Too expensive and designed to make it as hard as possible to build
88	
89	
90	Limit - but possibly well justified exceptions
91

105	
106	
107	Sustainability - they should not impose on existing drains
108	
109	
110	SB must be extended or else there is no room for any development. Chairman and Vice Chairman both live near possible development sites and should declare an interest
111	Limit - probably 1-3, certainly no more than 4-5
